## **RSIGuard Desktop Ergonomics Software Now in Eight Languages**

### **RSIGuard Adds Four New Languages to International Edition**

**Sausalito, CA – August 30, 2010** — [Remedy Interactive](#), Inc., a leading provider of enterprise software solutions that help organizations prevent [workplace injuries](#), announced today four new language options for [RSIGuard](#)® International Edition. RSIGuard is award-winning desktop [ergonomics software](#) that reduces the impact of [repetitive strain injuries](#) (RSI) for computer users. RSIGuard International Edition, which currently includes English, Dutch, Norwegian, and Spanish, now also includes Danish, Portuguese, French, and German.

“Organizations around the world have told us that they value ergonomics software that is localized and can be deployed easily to employees around the world,” said Kim Lopez, CEO of Remedy Interactive. “As the first and only company in our category to offer desktop ergonomics software in eight languages, we’re giving customers more flexibility to keep employees healthy and productive.”

#### **Availability**

RSIGuard International Edition customers that are under a current maintenance agreement may request an RSIGuard update at any time. Any organization that is interested in evaluating RSIGuard International Edition, including the new languages, on Windows, Mac OS or Linux, can download a free trial version of RSIGuard from [www.rsiguard.com/download](http://www.rsiguard.com/download).
